#### Dedicated to

My Master Sri HWL Poonja Papaji the Divine Lion whose grace swallowed me

and to my mother Euphemia Hamilton who in life was a Lion of Christ

he Mala of God is more than a book. It is a celebration of the living God, a blessing made tangible to be absorbed inside the Heart. The power of true prayer is to be in direct communion with the One. It is to discover, experience and imbibe the Truth of the unchanging God, to rise above our lowliness and mere fleshly nature, to be confirmed in the joy of unity with the One beyond the concept of unity and oneness, to be completely merged in the Supreme.

We intuitively experience God as the core of our innermost being. God is life itself and more than this. He is the totality of all that is, ever was and ever will be—what is potential, what is revealed, what is realised beyond separation. All is the Awareness God-Self.

To some, it may sound like a contradiction that one who has realised the Truth, the God-Self, would utter any such thing as a prayer, or speak of God as his Father when he is the very essence himself. But it is not a contradiction; the prayer of an awakened being is a true prayer, for it never leaves the One. It is out of his very Oneness, out of the love and joy that emanates from the awakened heart, that these prayers come as a gift to this world.

The Mala of God is offered to all seekers and devotees of Truth. For the devotee must develop wisdom and discernment, just as the philosopher must develop trust, openness, love and surrender to the Divine. One who has realised the Truth finds no conflict in its myriad expressions but sees the same presence of the One in all.

When the sage prays, draw near to him, for it is pure sentient expression bowing to its Source. Be absorbed in his Oneness. He will introduce you to God directly, for his presence radiates divinity and is the very embodiment of Truth. When the heart-mind encounters this presence, it is instantly struck and becomes naturally baptised in the Unborn Awareness Self.

Drink from his chalice of love and wisdom stirred by the finger of God. Even one prayer fully swallowed is enough to set your heart free in the infinity of Being. Be so drunk that you will find your way home without a map. Enter this temple of emptiness.
